

YEBIS ENGINEERING PLC

FROM STRUCTURE TO FINISH • INTEGRATED CONSTRUCTION SOLUTIONS

FORMERLY: YESHITILA TEDLA BUILDING CONTRACTOR (ESTABLISHED 2004 E.C.)

Comprehensive corporate profile, statutory licensure records, engineering capability matrix, and full historical performance register of 21 executed construction projects across commercial, institutional, public healthcare, and technical education sectors.

/// SECTION 01: EXECUTIVE OVERVIEW

CORPORATE PROFILE & OPERATING PHILOSOPHY

Yebis Engineering PLC is an accredited **Grade 3 General Contractor (GC-3)** headquartered in Addis Ababa, Ethiopia. Delivering turnkey general contracting, heavy reinforced concrete superstructures, electromechanical building services, and precision interior architecture, the firm serves federal ministries, regional bureaus, international NGOs, and private developers.

Originally founded in 2004 E.C. as "**Yeshitila Tedla Building Contractor**", the company established its foundational reputation through rigorous structural execution, public housing, and complex medical infrastructure projects—including specialized radiation-shielded suites for federal hospitals. Today, the organization operates integrated specialty divisions comprising dedicated aluminum fenestration and precision timber joinery manufacturing plants in Addis Ababa, eliminating subcontractor delays and ensuring single-point accountability.

/// SECTION 02: TECHNICAL SCOPE

MULTI-DISCIPLINARY SCOPE & SPECIALIZED SERVICES

01. GENERAL CONTRACTING (GC-3) Turnkey multi-story building construction, reinforced concrete frame superstructures, substructure earthworks, civil drainage, and structural rehabilitation.	02. STRUCTURAL DESIGN & BIM Complete architectural detailing, MEP spatial coordination, structural calculation verification, rebar schedule optimization, and 3D clash detection.
03. ELECTRICAL & MEP RETICULATION Main distribution boards, MV/LV panel synchronization, standby diesel generator changeovers, building management cable pathways, and emergency lighting.	04. PLUMBING & SANITARY SYSTEMS PPR potable water networks, multi-stage booster pump sets, PVC sanitary drainage stacks, 10-bar hydrostatic testing, and polyurethane waterproofing.
05. ACOUSTIC INTERIORS & FINISHING Acoustic gypsum partition walls, suspended Armstrong grid ceilings, high-traffic rectified porcelain tiling, anti-static epoxy coatings, and architectural coatings.	06. IN-HOUSE JOINERY WORKSHOP Addis Ababa industrial woodworking facility fabricating solid hardwood doors, flame-retardant fire doors, executive conference furniture, and acoustic wall paneling.
07. ALUMINUM & CURTAIN WALLING Structural aluminum facade engineering, thermal-break double-glazed window fenestration (1.8–2.2mm profiles), spider glass canopies, and metalwork.	08. STRUCTURAL RETROFITTING & RENOVATION Taking over incomplete structural skeletons, column jacketing, foundation underpinning, healthcare radiological retrofitting, and refurbishment.

KEY COMPETITIVE ADVANTAGE: SELF-PERFORMED FINISHING PLANTS

Unlike contractors who depend entirely on fragmented third-party subcontractors for architectural finishes, Yebis Engineering maintains dedicated aluminum fabrication and heavy industrial joinery workshops in Addis Ababa. This vertical integration guarantees millimeter-precise tolerance control, elimination of supply-chain bottlenecks, and comprehensive single-source warranties.

EQUIPMENT FLEET & QUALITY ASSURANCE PROTOCOLS:		
PLANT & MACHINERY: Rebar benders & cutters, concrete transit mixers, plate compactors, laser levels, scaffolding sets.	QUALITY CONTROLS: Compressive concrete cube testing (C25/C30/C40), slump checks, rebar tensile testing certifications.	HSE PROTOCOLS: Mandatory PPE compliance, toolbox safety meetings, scaffolding load verification, zero lost-time aim.

/// SECTION 03: MAJOR TURNKEY PROJECTS

SELECTED PROJECTS // EDUCATIONAL & CIVIL INFRASTRUCTURE

PROJECT 15 • TURNKEY GENERAL CONTRACTING • 2019

ETB 9,645,940.10

CHOLE TECHNICAL & VOCATIONAL TRAINING (TVET) COLLEGE CAMPUS EXPANSION

Client: Oromia Technical & Vocational Education & Training Bureau (OTVETB) • Location: Chole, Arsi Zone, Oromia

Comprehensive institutional campus expansion covering multi-classroom academic wings, heavy industrial training workshops with high-clearance bays, faculty administration offices, and compound surface drainage infrastructure.

- Reinforced concrete frame structures, suspended slabs & foundations
- Multi-classroom academic wings & administrative offices
- Industrial vocational workshops with high-clearance bays
- Surface drainage, perimeter security wall & access gates

Bid No: OTVETB/NCB/EXP/16/2018 • Contract Period: 240 Calendar Days (+ 365 Days DLP)

PROJECT 16 • TURNKEY GENERAL CONTRACTING • 2019

ETB 9,236,778.89

SECONDARY LIVESTOCK MARKET CENTER & TRADE INFRASTRUCTURE — WOLISO

Client: Oromia Trade & Market Development Bureau / AGPII • Location: Woliso Town, South West Shewa Zone

Civil and trade infrastructure development including heavy earthworks, basalt stone retaining walls, livestock sorting chutes, veterinary quarantine stations, and administrative commerce booths.

- Earthworks and basalt stone retaining wall networks
- Veterinary quarantine units, loading ramps & weighing stations
- Steel livestock containment pens and sorting chutes
- Market administration offices and stormwater infrastructure

Ref: DTGB/B-10/214 • Program: Agricultural Growth Program II (AGPII)

/// SECTION 04: SPECIALIZED FACILITIES

SELECTED PROJECTS // CLINICAL RESIDENCES & HEAVY PORTAL WORKSHOPS

PROJECT 12 • TURNKEY GENERAL CONTRACTING • 2016

ETB 8,186,933.04

CANCER CARE HOME & SPECIALIZED PATIENT RESIDENCE

Client: Cancer Care Ethiopia • Location: Burayu, Oromia

Turnkey delivery of a dedicated patient recovery complex with accommodation, clinical consultation suites, commercial kitchen/dining facilities, and hygienic medical-grade wall/floor finishes.

- Reinforced concrete superstructure & high-density HCB masonry
- Hygienic anti-microbial floor/wall finishes & recovery courtyard

- Clinical and residential plumbing networks & backup power
- Universal barrier-free accessibility ramp network

Mode: Turnkey General Contractor • Structural Frame: Cast-in-place RC

PROJECT 06 • TURNKEY GENERAL CONTRACTING • 2012

ETB 6,958,545.53

SULULTA TVET COLLEGE HEAVY TECHNICAL WORKSHOP FACILITY

Client: Oromia S/Z Sululta TVET College • Location: Sululta, Oromia

Technical workshop facility for vocational engineering education, integrating unobstructed 24m clear-span steel trusses, heavy reinforced concrete slabs (45 kN/m² capacity), and industrial 380V 3-phase power reticulation.

- Structural steel portal frame erection (24m clear span trusses)
- 3-phase industrial power reticulation (380V)

- Heavy reinforced concrete slab with hardener topping (45 kN/m²)
- Service pits, drainage trenches & industrial bay roll-up doors

Clear Span: 24m steel portal • Floor Load: 45 kN/m² • Power: 380V Industrial

/// SECTION 05: SPECIALIZED MEDICAL ENGINEERING

HOSPITAL EXPANSION & DIAGNOSTIC RADIOLOGY SHIELDING

PROJECT 11 • TURNKEY GENERAL CONTRACTING • 2014

ETB 2,280,077.60

ALERT SPECIALIZED HOSPITAL - PHASE II CLINICAL WING EXPANSION
Client: ALERT Hospital • Location: Zenebework, Addis Ababa

Structural expansion and modernization of clinical facilities including examination bays, consultation spaces, sanitary systems, acoustic suspended ceilings, and anti-static seamless epoxy flooring.

- Reinforced concrete structural expansion
- Acoustic suspended ceilings & specialized LED illumination
- Medical sanitary core, clinical drainage & scrub sinks
- Anti-static seamless epoxy floor coating & medical-grade wall finishes

Client Sector: Federal Specialized Hospital • Finishes: Medical-grade washable plaster

PROJECT 05 • SPECIALIZED MEDICAL RADIATION SHIELDING • 2012

ETB 886,096.97

ST. PETER'S SPECIALIZED HOSPITAL - X-RAY & RADIOLOGY SUITE SHIELDING
Client: St. Peter's Specialized Hospital • Location: Entoto Road, Addis Ababa

Specialized architectural and engineering works for diagnostic X-ray facilities, including baryte radiation shielding plaster, lead-sheet interlinings, radiation-attenuating lead glass, and dedicated clean-power conduits.

- Baryte radiation-shielding plaster (2.0 mm Pb lead-equivalent)
- Reinforced heavy equipment mounting pad
- Lead-sheet interlinings and lead-glass observation windows
- Dedicated clean-power electrical conduit pathways

Shielding: 2.0 mm Pb lead-equivalent baryte plaster • Observation: Attenuating lead glass
